

Chair:

We recently received your newsletter inviting our input to the subject revisions. We note that keeping the current number of Electoral Divisions and just revising the boundaries to better balance the populations in each is not one of your options. Why not? The Province does not need more representation in the Legislature and we can see no justification for the additional costs to the taxpayers that more MLAs will bring. Please cancel the proposed addition of four new Electoral districts.

Please note we are taking this same message to our local MLA.
