comments=In this time of budget restraints, and cut backs, we do not need more MLA's. The city of Calgary only has 14 alderman and a mayor to run the city, yet has 23 MLA's. Why are we paying the huge salaries and bonuses to so many politicians? Other departments, education, healthcare, etc are being told they are too top heavy, too much administration, yet the government itself is overloaded with bureaucrats, fat salaries, and comprehensive retirement packages.

Please set an example by cutting back the number of MLA's rather than increasing them.

Thank you.

Ken Wilson.
