comments=I believe it is time to change the number of electoral boundaries by reducing the total number in Alberta to 70 to 75 constituencies, at the most. The increased cost of having MLA's has risen and the back-benchers are not being recognized and some removed from cabinet etc. like the member from Ft. McMurray. It appears that the inner cabinet make the decisions and carry out their agenda without other elected mla's. If not needed- eliminate them-now is the time to impose constraint and consider another right wing party.
