

I would very much like to voice my concern regarding the Wetaskiwin-Camrose electoral district and the Lacombe- Ponoka district. We live just north of Dried Meat lake on the very northern boundary of the Lacombe-Ponoka district. As the lake is a natural boundary and all persons living on the north side of the lake would have children attending school in Camrose, do the major part of their business dealings in Camrose , it would seem the boundary between these two districts would be better established somewhere south of the lake at best. We have never even met the representative from Ponoka but have always dealt with our representative from Camrose. Even voting for those living north of the lake becomes onerous at best! I would so appreciate it if this matter could be rectified by a slight change in the boundaries between these two districts.
Thank you.

Sincerely
Vivianne Grue
