Dear Sir:

Please consider my letter of support to keep Chestermere in the Airdrie-Chestermere electoral constituency.

The Town of Chestermere has worked well with Airdrie and the M.D. of Rocky View over the past five years and we would like to continue that relationship at the Provincial level. As a resident of the Town of Chestermere I would ask you and the members of the Commission to decline pairing Chestermere in a riding with the City of Calgary.

We are a unique municipality and if associated with Calgary we would soon lose our identity at a Provincial level. The two communities have too many differences to be represented fairly by one MLA and one municipality would soon eclipse the other.

Simply put, I do not want to be represented in a Calgary riding. I left Calgary 12 years ago for a reason - because it was big and I have to say that the representation we have had recently from Rob Anderson on behalf of the WID issue has been stellar. It would not have been resolved without government participation, and I know that these kinds of issues are far different than Calgary's.

Thank you for taking my opinion into consideration at the Public Hearings. Please feel free to contact me at any time regarding this matter.

Sincerely,

Doug Easterbrook
