

I would like to indicate my opposition to the proposed boundary changes to the Grande Prairie Wapiti and the Grande Prairie Smokey ridings. The residence of these ridings have been well serviced by the existing structure with 1/2 of Grande Prairie in one riding and the other 1/2 in the other riding. To make a totally urban riding with most of Grande Prairie and then a basically rural riding will only pit the urban issues against the rural issues in the area. The way it is now people of both urban and rural communities have to work together and it creates a much healthier relationship.
