

My wife and I, directors of Smoky River constituency Board of Directors are opposed to making the boundary changes suggested by placing the City of Grande Prairie as a stand alone constituency. It makes the distance between the east and west boundaries of the left over area far too great. Communication is difficult enough at this time, without adding more miles to the scenario. We need more MLA power, not less. We feel the City of Grande Prairie is better with two MLAs instead of just one.
