

Dear Sir or Madam,

It appears to me that only population was taken into account on selecting the new boundaries south of Calgary. Trading and business areas don't seem to be a factor. I live in what is now Highwood and will be in Little Bow in the new boundaries. I will have land in three different constituencies and do business mostly in Highwood and High River/Crowsnest at the same time living in Little Bow. All three of my children will attend schools in different constituencies. I think it is important to know my MLA and keep in regular contact as well as being involved in my constituency association. Little Bow is huge and the new area added to the NW corner puts us hours away from being able to participate and get to know the MLA in the constituency I will live in. It seems you have fractured and neutered Highwood which is a natural trading area.

Furthermore five more MLA's are definitely not needed and a total waste of taxpayers resources. Another move by a government that has lost its direction making a long time supporter rethink years of loyalty.

Phil Rowland
