

The residents of Parkridges Estates Community are not very happy at the proposed boundaries changes which will move this community from Calgary Cross "family" to Calgary Montrose Constituency. We have over 650 residents that will be affected by this move and they want to remain under the present constituency of Calgary Cross. We have always been under the Calgary Cross why change now. What purpose will it serve only to please the politician that doesn't give a damn about the people they serve. Yvonne Fritz has always served this community well and we feel that with the changes we would lose the contact that we now have with our representative for our community.

Please don't do it and let us stay where we are we are happy with this Calgary

Cross.

Yours truly

Yves A.J. Morin

President

Parkridge Community Association
