Electoral Boundaries Commission  
100 11510 Kingsway Ave.  
Edmonton , Alberta  
T5G 2Y5

Dear Boundary Review Commissioners,

I have now had the opportunity to review your recently released report dealing with your recommendations for structuring the boundaries for the new and old constituencies within the Province.

Since I am a resident of the Grande Prairie Smoky Riding my particular focus was to understand the logic and reasoning for the recommendations as they effect the Peace River Region and more particularly, the constituencies of Grande Prairie Smoky and Grande Prairie Wapiti.

Having had the privilege of representing the residents of Grande Prairie Smoky for 12 years, I feel I was able to obtain a reasonable understanding of the needs of the region to adequately represent the constituents.

The proposed changes seem to overlook some very important elements for proper representation and voting procedures. Some of these concerns would be a direct result of the boundaries being restructured under the current proposal.

It appears that the commission has not been privy to some very important information which must be considered when new boundaries are developed. I would therefore request that the commission include Grande Prairie as they schedule the second round of hearings throughout the province.

I feel it is important that we have the opportunity to further discuss the challenges that the proposed changes would present, not only in adequately representing the region properly, but in the election process itself.

It is my plan to make a submission to the Commission; however I feel it is important that we have the opportunity to clarify the situation as it prevails here today.

Thank you for your consideration,

Yours Truly,

Walter Paszkowski
